

Housing Resources for Future Trinity Law School Students

Though Trinity Law School does not provide on-campus housing, we provide the following suggestions for students who are relocating:

If you are interested in renting a room, which can be significantly less expensive than renting an apartment or house, try: <http://kangaroom.com>

We have not personally used the site to locate adequate housing, but it may turn up some good opportunities. Still, stay aware and be cautious as you consider the offers on the site.

Alternatively, if your church is part of a denomination that expands across the nation, try locating a sister church in the southern California area and seeking housing leads that way.

If you are seeking the closest possible housing options to our school, here are some additional locations to consider:
